

Java

Alphabet Series

Java Program

Alphabet Series

9. Letter I

Code

The screenshot shows a Java code editor interface with the following code:

```
1 class LetterI {
2     Run | Debug
3     public static void main(String[] args) {
4         for(int i=1;i<=5;i++){
5             for(int j=1;j<=5;j++){
6                 if(i==1 || i==5 || j==3)
7                     System.out.print("*");
8                 else
9                     System.out.print(" ");
10            }
11        }
12    }
13 }
```

The code uses nested loops to print a 5x5 grid of asterisks (*). The first and last columns are filled with asterisks, while the third row contains asterisks at the first and fifth positions, creating the shape of the letter 'I'. The code is named `LetterI.java` and is located in a folder named `CODE`.

Output

```
C:\Windows\System32\cmd.e  X  +  ▾  
D:\system\Java Letter Pattern>javac LetterI.java  
D:\system\Java Letter Pattern>java LetterI  
*****  
*  
*  
*  
*****  
D:\system\Java Letter Pattern>|
```
